Step 1

Download the touchfoil™ Configuration Software and guide documents from our web site **www.visualplanet.biz/support** for the version of your touchfoil:
9279 (AXX)
Configuration software ⬇
5+2 (BXX)
Configuration software ⬇

Before laminating the touchfoil please perform a pre-lamination integrity test as instructed in the guide.
Step 2

Connect the touchfoil to the controller board and then the controller board to the computer using the USB cable supplied.

Note: when fitting the controller board, the gold contacts on the FFC should be facing down.
